The contracts include the purchase of 51 pieces of equipment for a total dollar amount of \$4,196,701.32. The majority of this equipment is self-propelled by diesel fuel. There are currently no alternative fuel options available for this type of equipment. The City purchases the cleanest diesel fuel available in the Austin area. Non-powered units include the refuse collection bodies that will be mounted on the truck chassis listed above, the equipment trailers that will be towed behind existing City-owned vehicles, and the dump/loader bodies that will be mounted on the cab & chassis listed above.

The equipment in this RCA has been recommended for purchase utilizing a process that involves the Fleet Officer, affected Department Director and Assistant City Manager (ACM). ACM approval is required for all new additions to the City's fleet prior to any requests being made to the Purchasing Office. Departments review the list of vehicles determined eligible for replacement by Fleet Services based on mileage, hours of use, and maintenance costs. From that list, priority uses are determined within the departments, and the departments' proposed equipment is reviewed by the Fleet Service Center Manager to insure the specified vehicle is appropriate for the use.

Of the 34 replacements, all have met the Fleet Officer's eligibility criteria for replacement. The Fleet Service Center Managers have inspected each piece of equipment to be replaced, and determined that the mileage or hours of use of each piece proposed for replacement cannot be increased without risking a significant increase in repair costs and loss of productivity due to down time. The 17 new pieces of equipment were also sent to Fleet Services and forwarded to the appropriate ACM for approval.

All of the vendors are under contract with the BuyBoard to supply various types of trucks or equipment statewide as a result of a competitive bidding process. Utilizing the BuyBoard contracts provides for volume discount pricing as well as the earliest opportunity to get the City's equipment on order.
